

Dear HLPOA Member,

Urgent! We need your help.

Building the Higgins Lake Public Sewer is without question the most important thing we can do to protect our lake. Everyone has to stand up now and support the project. Time is of the essence as the naysayers are very vocal. Our township officials are only hearing one side. It is up to us to make this happen. Below are steps we you asking you to do right away:

- 1. Sign the petition in support of the sewer ASAP and get in to your respective township.** Positive petitions are being mailed to where your tax bill goes this week. Sign the one in the mail or print a petition from one of the links below. Submitting a petition will not only demonstrate to the township boards they have community support, but also helps in the grant process.
- 2. Reach out directly to your township board and let them know you support the sewer project.** Tell them we need their leadership now. Contact them one of three ways. Go to township meeting and speak at the Public Comment section, call them at their offices, and send an email letting them know you appreciate their efforts to make this happen! Below is a link for contact information for Gerrish and Lyon Board members.
- 3. Ask your friends and neighbors in the proposed sewer authority district to sign the “yes” petition and contact their township officials to let them know they support the sewer.**
- 4. Let HLPOA know when you have sent in the “yes” petition and contact local township board members.** You can email us at hlpoa0@gmail.com.

We can't let this opportunity slip away. More will be asked of you as we move forward but do your part now to save the lake!
