

HLPOA email Blast 5.1.23 Camp Grayling Expansion/Lyon Township Proposed Septic Ordinance

Dear HLPOA member and those yet to renew:

Your letters of concern and participation in meetings have an impact on what happens around Higgins Lake! Thank you.

Camp Grayling Expansion Declined:

Thank you for your recent letters and emails sent regarding the proposed expansion of Camp Grayling. The Michigan Department of Natural Resources has declined the proposed expansion of 162,000 acres of state forest land to be used by the Department of Military and Veteran Affairs. This decision was made after public input and consultation with interested Michigan Tribal governments. Acting DNR Director Shannon Lott states, "Public concerns and feedback from Tribal governments, coupled with our own review of the proposal, led us to decide against a 20-year lease on such a significant portion of state-managed land."
